# ***What is Wellness?***

---

*Health is a state of complete physical, mental, spiritual and social well-being, and not merely the absence of disease or infirmity.*

Wellness comes from personal balance, not bodily perfection.

***Sleep...***

A close-up photograph of two puppies. One puppy is in the foreground, lying down with its eyes closed, appearing to be asleep. It has light brown fur and a dark brown face. The second puppy is in the background, also lying down, with its eyes partially closed. It has a white face with light brown patches. The background is softly blurred, suggesting an indoor setting.

# ***Sleep Hygiene***

- Make your bedroom a cave
- Use your bed for sleep or sex **ONLY**
- Keep regular sleep hours
- Avoid tobacco, alcohol and caffeine
- Turn off electronic devices
- Relax before bed
- Get daily exercise and AM sunlight
- Don't "horribilize"

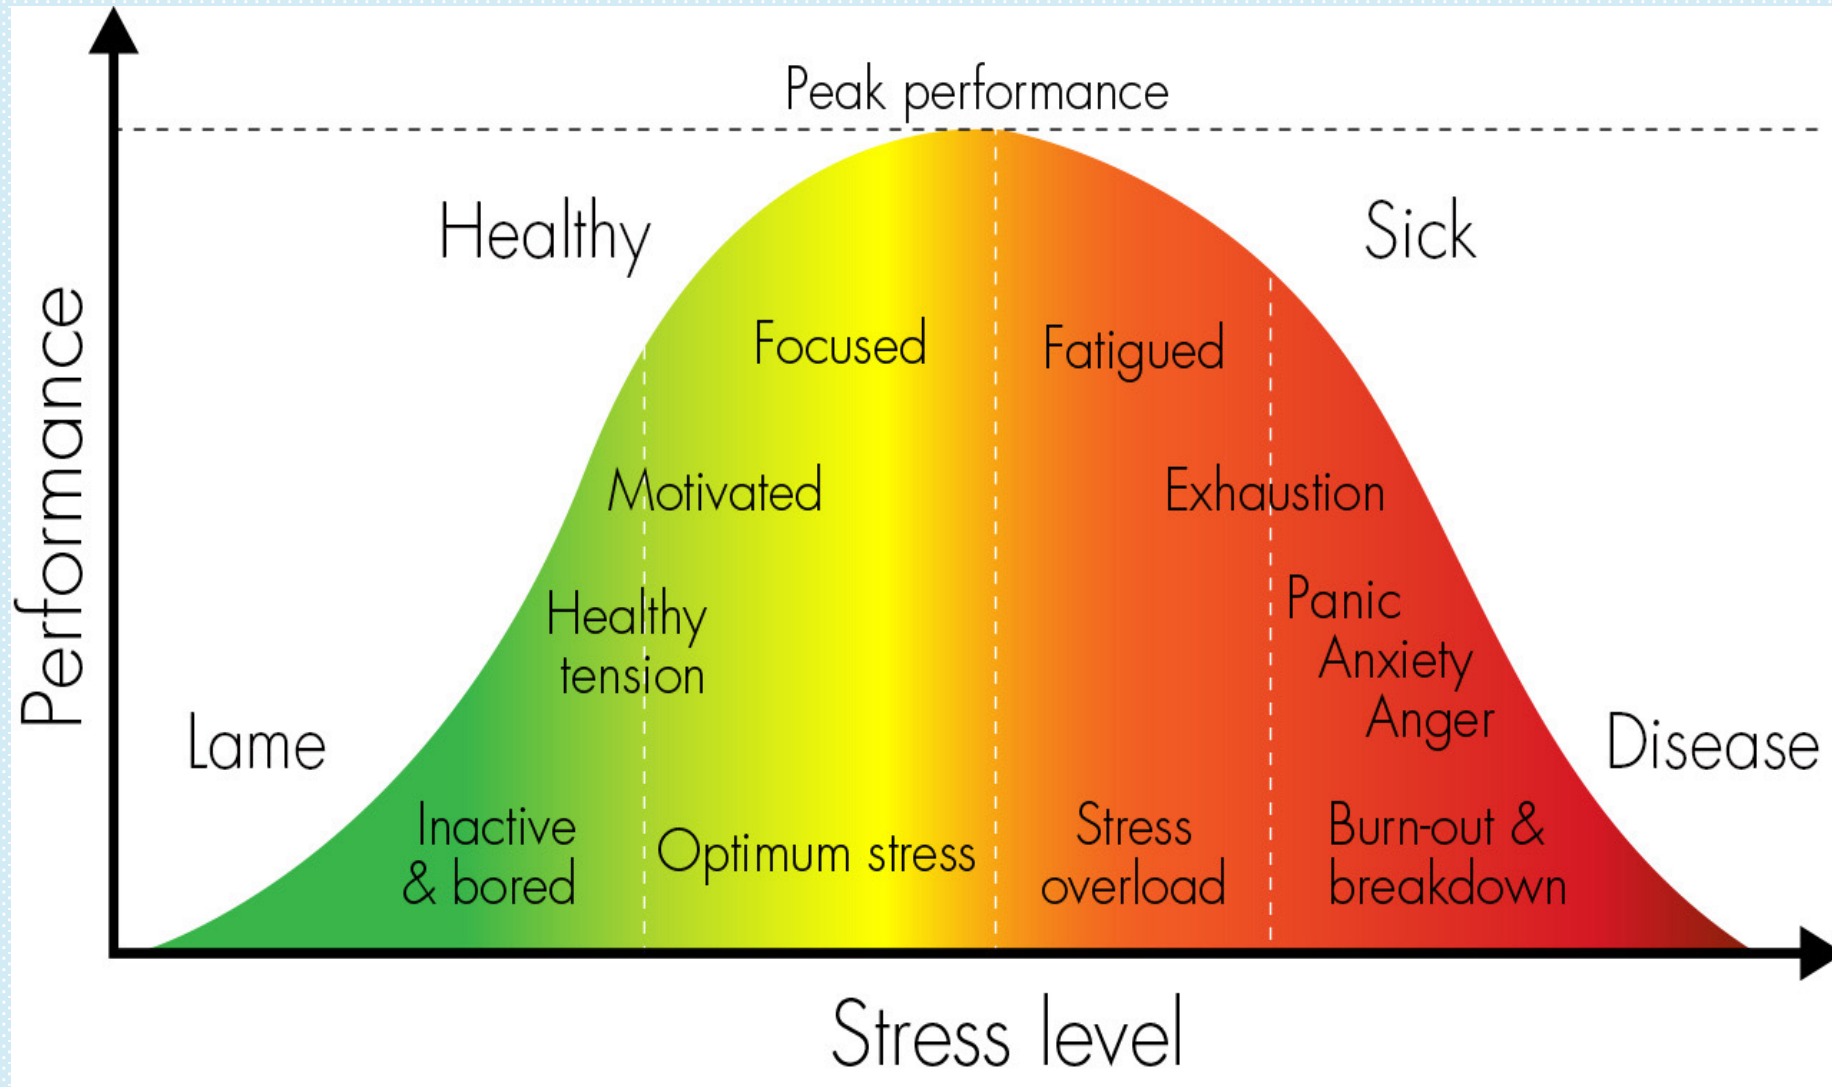

# ***Preventive Healthcare***
