

Immunization Requirements for Capstone 20-2

Current as of 1 Nov 19

AFRICOM (Kenya, Niger, Senegal/Back-Up: Uganda/Botswana)

****Yellow Fever**** - required NLT 20 Dec 19 for visa submission and for country entry; only one life-time dose is required**

EUCOM (Turkey, Norway, Germany/Back-Up: Bulgaria/Sweden)

****No vaccine entry requirements at this time****

Southwest Asia (Oman, Bahrain, Saudi Arabia and Jordan)

**** Anthrax Vaccine is required by CENTCOM (must have started series prior to departure)****

While not required by for country entry, it is recommended that you have the following DoD required vaccines up-to-date prior to departure:

Hepatitis A and B (series must be started within 10 days of travel)

Influenza (must be current for the season)

Meningococcal (must be current within last 5 years)

MMR (Measles/Mumps/Rubella; must have **2 total doses** during life time)

Pneumococcal (must be current within last 5 years **if over the age of 65** or if missing one's spleen)

Polio (must have had booster as adult)

Varicella (Chickenpox; one time only during life time or proof of immunity)

Tdap (Tetanus/Diphtheria/Pertussis; must be current within last 10 years)

Typhoid (must be current within last 2 years)

Please ensure all vaccine requirements are addressed prior to arrival at Capstone. There will be minimal time prior to your OCONUS travel to address any missing requirements. For further information, please contact Lt Col Sarah Abel, NDU Chief Nurse at (202) 685-4751 or via email at sarah.e.abel.mil@ndu.edu
